SUBJECT INDEX

Accident Association Index, evaluation of involvement of pack or medication, **6**, 303
Accidental poisoning, multicentre survey of children, epidemiology, **6**, 293
2-Acetylaminofluorene, modulation of genotoxicity by butylated hydroxytoluene, **6**, 424
Acetylcysteine, pharmacological treatment of paraquat poisoning, **6**, 57
Actinide-bearing aerosols, behaviour in rat lung, **6**, 365
Acute oral toxicity project, **6**, 279
Adenomas, frequency in livers examined at autopsy, **6**, 209
Adenosine triphosphatase, changes in renal papillary necrosis in rats, **6**, 430
Adrenal cortical necrosis, paraquat poisoning, **6**, 41
Adrenal corticosteroid release, comparatve effects of omeprazole, etomidate, ketoconazole and metyrapone *in vitro*, **6**, 440
γ-Adrenoceptor blocking drugs, quantifying side-effects, role of visual analogue scales, **6**, 195
Adsorbents, limitations in cases of paraquat poisoning, **6**, 31
–, treatment of paraquat poisoning, **6**, 49
Adsorbin, effectiveness as an adsorbent of paraquat, experimental and clinical studies, **6**, 89
Adverse reaction reporting, **6**, 185
Aerosols, actinide-bearing, behaviour in rat lung, **6**, 365
Age, consideration in treatment with gastric lavage for drug overdose, **6**, 215
–, effect on cadmium concentrations in human kidneys from UK, **6**, 111
–, in relation to cases of self poisoning in Newcastle upon Tyne 1980s, **6**, 511
–, in relation to poisoning by over-the-counter doxylamine preparations, **6**, 355
Agranulocytosis, associated with metiamide, **6**, 429
Alkaline phosphatase, changes in renal papillary necrosis in rats, **6**, 430
Allyl alcohol, effect on rat plasma proteins, **6**, 121
Am, metabolism after deposition in rat lung, **6**, 365
Aminoglutethimide, role in endocrine management of cancer, toxicity, **6**, 187
–, second-line hormonal therapy in advanced breast cancer, response and toxicity, **6**, 227
S-amino acid deficiency, role in toxicity induced by feeding paracetamol, **6**, 426
***p*-Aminophenol**, induction of nephrotoxicity, effect of BSO in the F344 rat, **6**, 444
***p*-Aminopropiophenone**, effect on blood and plasma levels of cyanide and methaemoglobin levels after intravenous administration of cyanide in beagles, **6**, 139
–, effect on intravenous infusion of cyanide in beagles, **6**, 133
5-Aminosalicylic acid, induction of keratoconjunctivitis sicca in the dog, **6**, 377
Ammonium diuranate, metabolism in rat, implications for occupational exposure, **6**, 385
Amrinone, effect on intracellular concentration of calcium in marmoset platelets, **6**, 437
–, effect on rat promegakaryoblasts *in vitro*, **6**, 437
–, effect on platelets, **6**, 436
Analgesics, epidemiological aspects of childhood poisonings in Ankara, **6**, 147
Animal welfare, in relation to acute oral toxicity testing, **6**, 279
–, in relation to irritancy testing, **6**, 269
–, medical experimentation, **6**, 449
Ankara, 10 year survey of childhood poisonings, **6**, 147
Anticoagulant binding site, detection in rat liver microsomes, relevance to anticoagulant effect, **6**, 432
Anticoagulants, evidence for a common binding site *in vivo* for retention in rat liver, **6**, 431
Antidotes, international opinion concerning indications, safety and availability at poison centres, **6**, 361
Antipyrine metabolism, Venda Africans, **6**, 127
Aroclor 1254, effect on rat plasma proteins, **6**, 121
Arsenic, comparison of levels in rabbit tissues following equi-toxic doses of sodium arsenite and dichloro(2-chlorovinyl)arsine, **6**, 434
–, effect of decimal and centisimal dilutions on retention and mobilization in the rat, **6**, 315
L-Ascorbic acid, effect on paracetamol-induced hepatotoxicity in mice, **6**, 428
–, pharmacological treatment for paraquat poisoning, **6**, 57
Ascorbyl palmitate, effect on paracetamol-induced hepatotoxicity in mice, **6**, 428
Aspiration, induced by interaction of Contac 400 with anaesthetics, **6**, 529
Astemizole, ECG studies, **6**, 527
Atropine sulphate, effects of single intramuscular injection on visual performance in man, **6**, 165

BAL, influence on distribution and binding of cadmium in rats, **6**, 451
Barbiturates, epidemiological aspects of childhood poisonings in Ankara, **6**, 147
Barcelona, pentachlorophenol and hexachlorobenzene levels in serum and urine of the population, **6**, 397
Beclomethasone dipropionate, action on dog electrocardiogram, effects of subcutaneous isoprenaline and salbutamol challenge, **6**, 442
Belgian Poison Centre, survey of enquiries about exposure to paraquat, **6**, 102
Beryllium, solubility in the lung, comparison of metal and hot pressed forms, **6**, 233
Binding sites, for anticoagulants in rat liver, **6**, 431
Biochemical abnormalities, paraquat poisoning, **6**, 41
Biological fluids, emergency analysis of paraquat, **6**, 83
Biosensors, potential for minimally invasive analysis in toxicology, **6**, 422
Blood, levels of cyanide, in beagles after cyanide administration with or without protection from *p*-aminopropiophenone protection, **6**, 139
–, UK lead monitoring programme 1984: protocol and results, **6**, 459
Blood cells, human, metabolism, effect of gentamicin as measured by microcalorimetry, **6**, 223
Blood pressure, effect of astemizole, **6**, 527
Body weight, effect on carcinogenicity testing in rodents, **6**, 107
Bone marrow cells, haemopoietic and stroma, clonal analysis of the effects of metiamide *in vitro*, **6**, 429
Bone marrow hypoplasia, implication of ranitidine in renal patients during intensive care, **6**, 503
Bowel disease, inflammatory, negative association with cigarette smoking, **6**, 189
Brain, human, nicotine binding sites, **6**, 343

Breast cancer, aminoglutethimide as second-line hormonal therapy in advanced breast cancer, response and toxicity, **6**, 227
–, toxicity of aminoglutethimide treatment, **6**, 187
British Toxicology Society Working Party on Irritancy, **6**, 269
D, L-buthionine [S,R] sulphoximine, effect on *p*-aminophenol-induced nephrotoxicity in the F344 rat, **6**, 444
Butylated hydroxytoluene, modulation of 2-acetyl-aminofluorene genotoxicity, **6**, 424

Cadmium, concentrations in human kidneys from UK, **6**, 111
–, influence of chelating agents on distribution and binding, **6**, 451
Calcium, intracellular concentration in marmoset platelets, effect of amrinone, **6**, 437
Calcium montmorillonite, treatment for paraquat poisoning, **6**, 49
Campaign for the reform of animal experimentation, **6**, 449
Cancer treatment, monitoring by NMR spectroscopy, **6**, 419
Carbamazepine, pharmacokinetics in an overdose patient, **6**, 241
Carbamazepine-10, 11-epoxide, pharmacokinetics in an overdose patient, **6**, 241
Carbon tetrachloride, effect on rat plasma proteins, **6**, 121
Carcinogenicity testing, in rodents, **6**, 107
Cardiac glycoside toxicity, resulting from cough linctus abuse, **6**, 251
Cardioactive agents, use of spontaneously beating myocardial myocyte reaggregate cultures to investigate functional and biochemical changes, **6**, 443
Cardiorespiratory function, changes during gastric lavage for drug overdose, **6**, 215
Cardiovascular features, paraquat poisoning, **6**, 41
Cation resin, effectiveness as an adsorbant of paraquat, experimental and clinical studies, **6**, 89
Charcoal, effects of oral administration in the treatment of isoniazid overdose, **6**, 497
Chelating agents, influence on the distribution and binding of cadmium in rats, **6**, 451
Chest monitoring, data and assessment limits for worker in nuclear industry, **6**, 365
Child poisoning, in relation to packaging of medicines, **6**, 265
Child resistant closures, effectiveness in preventing childhood poisoning accidents, **6**, 303
–, protective role, **6**, 265
Childhood poisonings, epidemiological aspects in Ankara, a ten year survey, **6**, 147
Children, accidental poisoning, epidemiology, **6**, 293
–, accidental poisoning, role of packaging in accidents involving medications, **6**, 303
Cigarette smoking, consideration in treatment of drug overdose with gastric lavage, **6**, 315
–, effect on cadmium concentrations in kidneys from UK, **6**, 111
–, influence on thyroid hormone levels, **6**, 507
–, negative association with inflammatory bowel disease, **6**, 189
–, relevance of brain nicotine binding sites, **6**, 343
–, risk to spouse of lung cancer, possible bias, **6**, 517
Cimetidine, safety evaluation, a seven year study in dogs, **6**, 159
Circumpulpul dentine, high levels of lead suggest lead intoxication, **6**, 475
Cirrhosis, frequency in autopsy population, **6**, 209
Clofibrate, pharmacological treatment of paraquat poisoning, **6**, 57
Clonazepam, effect on the pharmacokinetics of carbamazepine in an overdose patient, **6**, 241
Coca-cola, spermicidal potency, **6**, 395
Colon, rat, influence of diet and β-naphthoflavone on oxidation and conjugation enzymes, **6**, 428
Coma, symptom of doxylamine overdose, **6**, 355
Complement component C4, effect of penicillamine, **6**, 424
Conjugation enzymes, influence of diet and β-naphthoflavone in rat liver and colon, **6**, 428
Contac 400, interaction with anaesthetics, **6**, 529
Cough linctus abuse, induction of cardiac glycoside toxicity, **6**, 251
Cyanide, blood and plasma levels, effect of intravenously administered cyanide in beagles with and without *p*-aminopropiophenone protection, **6**, 139
–, effect of *p*-aminopropionphenone on intravenous infusion in beagles, **6**, 133
Cycloheximide, inhibition of metabolic cooperation in V79 cells, **6**, 433
Cyclophosphamide, assessment of effectiveness against paraquat poisoning in rats, **6**, 99
Cytochrome P450 isoenzyme inducers, effect on rat plasma proteins, **6**, 121

Denmark, cases of dextropropoxyphene poisoning, **6**, 203
Dermal exposure, risks from normal and long term use of paraquat, **6**, 13
Dermal irritancy, investigation in relation to scientific methodology and animal welfare, **6**, 269
Desferrioxamine, pharmacological treatment of paraquat poisoning, **6**, 57
Dexamethasone, assessment of protective effects against paraquat poisoning in rats, **6**, 99
Dextropropoxyphene, cases of poisoning in Denmark, **6**, 203
Diamine transport process, role in accumulation of paraquat in lung, **6**, 31
Diazepam, intravenous administration, treatment for isoniazid overdose, **6**, 497
Dichloro(2-chlorovinyl)arsine, tissue levels of arsenic following toxic doses in rabbits, **6**, 434
Diet, effect on carcinogenicity testing in rodents, **6**, 107
–, influence on oxidation and conjugation enzymes in the rat liver and colon, **6**, 428
Dietary factors, influence on paracetamol metabolism, **6**, 407
Diethylnitrosamine, initiation of hepatic tumours promoted by hexachlorobenzene, porphyrogenic response, **6**, 434
Diquat, comparison of intoxication with that of paraquat, **6**, 103
Disc batteries, mercury poisoning after ingestion, **6**, 179
Dissolution assays, measurement of beryllium metal solubility in lung, **6**, 233
Doxylamine, over-the-counter preparations, poisoning, **6**, 355
Draize procedures, assessment with a view to improving scientific methodology and animal welfare, **6**, 269
–, review, **6**, 263

Drug overdose, changes in cardiorespiratory function during gastric lavage, **6**, 215
Drug safety, monitoring, **6**, 185
Drugs, implication in accidental poisoning in childhood, **6**, 293

Electrocardiogram, dogs maintained on inhaled beclamethasone, effects of subcutaneous isoprenaline and salbutamol, **6**, 442
–, studies with astemizole, **6**, 527
Elimination kinetics, of carbamazepine in an overdose patient, **6**, 241
Emetics, treatment of paraquat poisoning, **6**, 49
–, treatment of paraquat poisoning, pharmacological effects, **6**, 57
Enzyme histochemistry, changes in renal papillary necrosis in rats, **6**, 430
Epidemiology, paraquat poisoning, **6**, 19, 103
–, of paraquat poisoning in Japan, **6**, 87
Epileptogenic properties, of nomifensine, **6**, 247
Erionite, early changes following the intrapleural inoculation, **6**, 435
Etomidate, effects on adrenal corticosteroid release *in vitro*, **6**, 440
Etretinate, induction of hyperlipidaemia, effect of dietary fish oil, **6**, 219
Extraocular muscle balance, effect of single intramuscular injection of atropine sulphate in man, **6**, 165
Eye, irritant actions of paraquat, **6**, 41
–, rat, acute and delayed effects, **6**, 441

Fatty acids, inhibition of synthesis by paraquat, **6**, 31
Fenitrothion, acute poisoning, **6**, 403
Feverfew, investigation of possible genotoxic effects in migraine patients, **6**, 533
Fish, cooked, method for assaying TRP-P-2, **6**, 431
Fish oil, dietary, effect on hyperlipidaemia due to isotretinoin and etretinate, **6**, 219
Fluid replacement, paraquat poisoning, **6**, 41, 57
Food, and food additives, adverse reactions to, **6**, 339
Fumigation, with methyl bromide, safety precautions, **6**, 491
Fund for the replacement of animals in medical experimentation, **6**, 449

Gas chromatography, measurement of paraquat in biological fluids, **6**, 83
Gastric lavage, for drug overdose, changes in cardiorespiratory function, **6**, 215
–, treatment for isoniazid overdose, **6**, 497
–, treatment for paraquat poisoning, **6**, 49
Gastrointestinal symptoms, paraquat poisoning, **6**, 41
Gastrointestinal tract, absorption of paraquat in cases of poisoning, **6**, 37
Genotoxicity, effects of feverfew in migraine patients, **6**, 533
Gentamicin, effect on metabolism in human blood cells as measured by microcalorimetry, **6**, 223
α_{2u}-Globulin, from male rat kidney, interaction with 2,2,4-trimethylpentane, **6**, 425
γ-Glutamyl transpeptidase, changes in renal papillary necrosis in rats, **6**, 430
Glutathione, modulation of levels by methionine in primary cultures of rat hepatocytes, **6**, 427
Glutathione transferase, human liver, detoxification of styrene oxide, **6**, 483
Glycoproteins, effects of hepatotoxins and cytochrome P450 isoenzyme inducers, **6**, 121

Haematological abnormalities, paraquat poisoning, **6**, 41
Haematological defects, induced in child by maternal use of mercury containing soap, **6**, 253
Haemodialysis, treatment for extreme case of isoniazid overdose, **6**, 497
–, treatment for paraquat poisoning, **6**, 63, 69
–, with haemoperfusion, treatment for acute poisoning with fenitrothion, **6**, 403
Haemoperfusion, treatment for extreme cases of isoniazid overdose, **6**, 497
–, treatment for paraquat poisoning, **6**, 63, 69
–, with haemodialysis, treatment for acute poisoning with fenitrothion, **6**, 403
Hahnemannian dilutions, of arsenic, effect on elimination and retention in the rat, **6**, 315
Heart block, mianserin induced, **4**, 401
Heart rate, effect of astemizole, **6**, 527
Hepatic symptoms, paraquat poisoning, **6**, 41
Hepatic tumours, initiated by diethylnitrosamine and promoted by hexachlorobenzene, porphyrogenic response, **6**, 434
Hepatocytes, rat, primary cultures, modulation of glutathione levels by methionine, **6**, 427
Hepatotoxicity, paracetamol-induced, cytoprotective effects of iloprost, **6**, 429
–, paracetamol-induced, effect of L-ascorbic acid and ascorbyl palmitate in mice, **6**, 428
Hepatotoxins, effect on rat plasma proteins, **6**, 121
Herbicides, properties for particular weed-crop situations, **6**, 7
Hereditary factors, influence on paracetamol metabolism, **6**, 407
Hexachlorobenzene, levels in serum and urine of the population of Barcelona, **6**, 397
Homeopathic medicines, controlled investigations, **6**, 267
Homeopathic remedy, influence on the excretion kinetics of lead in rats, **6**, 321
Hormonal therapy, advanced breast cancer, response and toxicity, **6**, 227
Household products, implication in accidental poisoning in childhood, **6**, 293
4-Hydroxyantipyrine, metabolism in Venda Africans, **6**, 127
3-Hydroxymethylantipyrine, metabolism in Venda Africans, **6**, 127
Hyperlipidaemia, due to isotretinoin or etretinate, effect of dietary fish oil, **6**, 219

Ibuprofen, study of overdose after two years of over-the-counter sales, **6**, 173
Iloprost, cytoprotection against paracetamol-induced toxicity in isolated hepatocytes, **6**, 429
Inhalation exposure, risks from normal use of paraquat, **6**, 13
Intensive care, development of renal failure in patients during intensive care, implication of ranitidine, **6**, 503
Interstitial nephritis, acute, after re-exposure to nomifensine, **6**, 245
Irritancy testing, investigation considering scientific methodology and animal welfare, **6**, 269
–, a review, **6**, 263
Ischaemia, measurement of effects by NMR spectroscopy,

6, 418
Isoniazid, pharmacokinetics, following overdose and effects of oral charcoal in treatment, **6**, 497
Isoniazid-DNA adducts, formation and persistence in mouse tissues, **6**, 153
Isoprenaline, effect of subcutaneous challenge on electrocardiogram of dogs maintained on inhaled beclomethasone dipropionate or sham-treated, **6**, 442
Isotretinoin, induction of hyperlipidaemia, effect of dietary fish oil, **6**, 219

Japan, epidemiology of paraquat poisoning, **6**, 87

Kayexalate, effectiveness as an adsorbant of paraquat, experimental and clinical studies, **6**, 89
Keratoconjunctivitis sicca, induction in dog following 5-aminosalicylic acid administration, **6**, 377
Ketoconazole, effects on adrenal corticosteroid release *in vitro*, **6**, 440
Kidneys, efficacy in removing paraquat from body, **6**, 63
–, human, cadmium concentrations, **6**, 111

Lead, homeopathically diluted, effect on urinary lead excretion in rats, **6**, 321
–, UK blood monitoring programme 1984: protocol and results, **6**, 459
Lead intoxication, evidence of high levels in circumpulpul lead concentrations, **6**, 475
Legislation, paraquat sales, **6**, 19
Lewisite *see* **Dichloro(2-chlorovinyl)arsine**
Lipid peroxidation, following paraquat ingestion in man, **6**, 94
Liquid chromatography, measurement of paraquat in biological fluids, **6**, 83
Lithium, self-poisoning and therapeutic intoxication, **6**, 325
Liver, effects of sodium arsenite on rats pretreated with phenobarbitone or 3-methylchol-anthrene, **6**, 432
–, human, detoxification of styrene oxide by glutathione transferase, **6**, 483
–, rat, evidence for a common binding site *in vivo* for retention of anticoagulants, **6**, 431
–, rat, influence of diet and β-naphtho-flavone on oxidation and conjugation enzymes, **6**, 428
Liver lesions, frequency in an autopsy population, **6**, 209
Liver microsomes, rat, detection of anticoagulant binding site, relevance to antiocoagulant effect, **6**, 432
Lung, accumulation of paraquat in cases of poisoning, **6**, 31
–, rat, metabolic behaviour of industrial actinide-bearing aerosols after deposition, **6**, 365
–, solubility of metal and hot-pressed forms of beryllium, **6**, 233
Lung cancer, association with passive smoking, **6**, 517
Lung damage, paraquat induced leading to anoxia, **6**, 31
–, techniques to prevent late damage from paraquat, **6**, 57

Magnetic resonance spectroscopy, *in vivo*, principles and human studies, **6**, 418
Meat, cooked, method for assaying TRP-P-2, **6**, 431
Medicines, packaging, **6**, 265
Membrane stabilizing activity, *in vitro* measurement in a ciliated protozoan model, **6**, 442
Meptazinol, induction of near fatal respiratory depression by overdose, **6**, 331
Mercury, inorganic, contained in cosmetics, induction of prenatal and early postnatal intoxication after maternal use, **6**, 253
–, poisoning after disc-battery ingestion, **6**, 179
Metabolic cooperation, V79 cells, inhibition by cycloheximide, **6**, 433
Metals, toxic, *in vivo* measurements using neutron activation analysis and X-ray fluorescence, **6**, 421
Metastatic carcinoma, frequency in livers examined at autopsy, **6**, 209
Methaemoglobin, effect of cyanide infusion on levels after *p*-aminopropiophenone in beagles, **6**, 133
–, effect of intravenously administered cyanide on levels in beagles with and without *p*-aminopropiophenone protection, **6**, 139
Methionine, modulation of levels of glutathione in primary cultures of rat hepatocytes, **6**, 427
Methoxyacetic acid, effect of its carboxylic acid analogues on testicular cells in culture, **6**, 425
Methyl bromide, effect of high exposure to skin, **6**, 491
Methyl isocyanate, acute and delayed effects on the eye, **6**, 441
–, effects on rat muscle in culture, **6**, 439
3-Methylcholanthrene, effect of pretreatment on hepatic effects of sodium arsenite in rats, **6**, 432
Metiamide, clonal analysis of the effects on bone marrow haemopoietic and stromal progenitor cells *in vitro*, **6**, 429
Metyrapone, effects on adrenal corticosteroid release *in vitro*, **6**, 440
Mianserin, complete heart block, **6**, 401
Microcalorimetry, measurement of effects of gentamicin on metabolism in human blood cells, **6**, 223
Migraine patients, investigation of genotoxic effects of feverfew, **6**, 533
Mineral fibres, early changes following the intra-pleural inoculation, **6**, 435
Morbidity rates, paraquat, **6**, 19
Mortality rates, paraquat, **6**, 19
Muscle, rat, effects of methyl isocyanate in culture, **6**, 439
Muscle fatigue, side effect of beta-blockers, **6**, 195
Mydriasis, symptom of doxylamine overdose, **6**, 355
Myocardial myocyte cultures, used to investigate functional and biochemical changes caused by cardioactive agents, **6**, 443
Myocardial ultrastructural changes, after acute paraquat poisoning, **6**, 100

NADPH, depletion in lung in cases of paraquat poisoning, **6**, 31
Nails, irritant actions of paraquat, **6**, 41
β-Naphthoflavone, influence on oxidation and conjugation enzymes in the rat liver and colon, **6**, 428
Nephrotoxicity, application of NMR imaging, **6**, 422
–, *p*-aminophenol-induced, effect of BSO in the F344 rat, **6**, 444
Neurological disorders, nicotine binding sites in human brain, **6**, 343
Neurological features, paraquat poisoning, **6**, 41
Neutron activation analysis, *in vivo* measurements of toxic metals, **6**, 421
Newcastle upon Tyne, epidemiology of self poisoning in 1980s, **6**, 511
Niacin, pharmacological treatment of paraquat poisoning, **6**, 57
Nicotine binding sites, brain, **6**, 343
NMR spectroscopy *see* **Nuclear magnetic resonance**

spectroscopy
Nomifensine, induction of acute renal failure after re-exposure, **6**, 245
–, induction of convulsive seizures, **6**, 247
Non-steroidal anti-inflammatory drugs, study of toxicity in overdose, **6**, 173
Norantipyrine, metabolism in Venda Africans, **6**, 127
Nose, irritant actions of paraquat, **6**, 41
Nuclear industry, assessment of limits of ^{239}Pu in lungs, **6**, 365
–, implications for occupational exposure of metabolism of uranium in rat, **6**, 385
Nuclear magnetic resonance imaging, application to nephrotoxicity, **6**, 422
Nuclear magnetic resonance spectroscopy, measurement of the effects of ischaemia, **6**, 418
–, monitoring cancer treatment, **6**, 419
–, role in pharmaceutical research, **6**, 419

Ocular defects, induced in child by maternal use of mercury containing soap, **6**, 253
Ocular irritancy, investigation in relation to scientific methodology and animal welfare, **6**, 269
Omeprazole, effects on adrenal corticosteroid release *in vitro*, **6**, 440
Opiates, in cough linctus, induction of cardiac glycoside toxicity, **6**, 251
Oral contraceptives, association with Crohn's disease in women of childbearing age, **6**, 189
Oral toxicity testing, evaluation of methods, **6**, 279
Oropharyngeal symptoms, paraquat poisoning **6**, 41
Oxidation enzymes, influence of diet and β-naphthoflavone in rat liver and colon, **6**, 428

Packaging, in relation to accidental poisoning by paraquat, **6**, 19
–, role in accidental poisoning in childhood, **6**, 303
Pancreatic symptoms, paraquat poisoning, **6**, 41
PAPP *see* ***p*-Aminopropiophenone**
Paracetamol, effect of dietary or hereditary factors on metabolism in humans, **6**, 407
–, induction of hepatotoxicity in mice, effect of L-ascorbic acid and ascorbyl palmitate, **6**, 428
–, induction of toxicity, role of S-amino acid deficiency, **6**, 426
–, induction of toxicity in isolated hepatocytes, cytoprotective effects of Iloprost, **6**, 429
–, study of toxicity using *Saccharomyces cerevisiae*, **6**, 439
Paraquat, cases of poisoning in Greece, **6**, 104
–, clinical aspects of acute poisoning, **6**, 102
–, clinical features and general management of poisoning, **6**, 41
–, clinical features and pathological findings of two cases of poisoning, **6**, 100
–, comparison of intoxication with that of diquat, **6**, 103
–, effectiveness of protective effect of cyclophosphamide and dexamathasone in rats, **6**, 99
–, epidemiology and prevention of poisoning, **6**, 19
–, epidemiology in Japan, **6**, 87
–, evidence for lipid peroxidation in man following ingestion, **6**, 94
–, haemodialysis as treatment for paraquat poisoning, **6**, 69
–, human myocardial ultrastructural changes following acute poisoning, **6**, 100
–, incidence of poisoning in an epidemiological study, **6**, 103
–, mechanisms of toxicity in lung and its relevance to treatment, **6**, 19
–, new safe non-swallowable formulation, **6**, 87
–, pharmacological treatment of poisoning, **6**, 57
–, poisonings in Trinidad, survival rates, **6**, 99
–, prognostic value of plasma and urine concentrations, **6**, 91
–, pulmonary superoxide dismutase activity in four cases of lethal poisoning, **6**, 100
–, rationale for current treatment regimes in cases of poisoning, **6**, 37
–, report on the second European symposium on paraquat poisoning held at Guy's Hospital London, 27th January 1986, **6**, 3
–, review of safety in agricultural and horticultural use, **6**, 13
–, self poisoning, **6**, 102
–, survey of enquiries about exposure received at the Belgian Poison centre, **6**, 102
–, techniques for emergency analysis in biological fluids, **6**, 83
–, treatment of poisoning in man, prevention of absorption, **6**, 49
–, uses and usefulness, **6**, 7
Paraquat lung, role for radiotherapy, **6**, 75
Passive smoke, association with lung cancer, estimate of bias, **6**, 517
Penicillamine, effect on complement component C4, **6**, 424
Pentachlorophenol, levels in serum and urine of the population, **6**, 397
Pentose phosphate pathway, stimulation by paraquat, **6**, 31
Pepsi-cola, spermicidal potency, **6**, 395
Peripheral coldness, side effect of beta-blockers, **6**, 195
Pharmaceutical research, role for NMR spectroscopy, **6**, 419
Phenobarbital, intravenous administration for treatment of isoniazid overdose, **6**, 497
Phenobarbitone, effect on rat plasma proteins, **6**, 121
–, effect of pretreatment on hepatic effects of sodium arsenite in rats, **6**, 432
Piridoxine, intravenous administration, treatment for isoniazid overdose, **6**, 497
Plants, implication in childhood accidental poisoning, **6**, 293
Plasma, cyanide levels, after cyanide administration in beagles with and without *p*-aminopropiophenone protection, **6**, 139
–, prognostic value of paraquat concentrations, **6**, 91
Plasma proteins, rat, changes after treatment with hepatotoxins, of cytochrome P450 inducers, **6**, 121
Platelets, effect of amrinone, **6**, 436
–, marmoset, effect of amrinone on intracellular concentrations of calcium, **6**, 437
Pleural mesothelioma, association with erionite, **6**, 435
Plumbum metallicum, influence on excretion kinetics of lead in rats, **6**, 321
Poison centres, international opinion concerning indications, safety and availability of antidotes and treatment, **6**, 361
Porphyrogenic response, in diethylnitrosamine-initiated hepatic tumours promoted by hexachlorobenzene, **6**, 434
Positron emission tomography, measuring regional tracer concentrations in man, **6**, 420
Potassium substitution, treatment for terbutaline overdose,

6, 525
PP796, treatment of paraquat poisoning, **6**, 49
Promegakaryoblasts, rat, effect of amrinone, **6**, 437
Proprietary medicines, interaction with anaesthetics, **6**, 529
Prostate cancer, toxicity of animoglutethimide treatment, **6**, 187
Protazoan motility, inhibition by β-adrenoceptor antagonists, **6**, 443
Psychosis, symptom of doxylamine overdose, **6**, 355
Pu, metabolism after deposition in rat lung, **6**, 365
Puchel, influence on distribution and binding of cadmium in rats, **6**, 451
Pulmonary damage, in four cases of lethal paraquat poisoning, **6**, 100
–, paraquat-induced, role for radiotherapy, **6**, 75
Pump inhibitors, treatment of paraquat poisoning, pharmacological effects, **6**, 57

Radioimmunoassay, measurement of paraquat in biological fluids, **6**, 83
Radiotherapy, role in treatment of patients with pulmonary damage following paraquat ingestion, **6**, 75
Ranitidine, implication in bone marrow hypoplasia in patients with renal failure in intensive care, **6**, 503
Reaction time, effect of atropine sulphate in man, **6**, 165
Reaginic antibody production, tartrazine specific, **6**, 438
Red-green balance, effect of atropine sulphate in man, **6**, 165
Redox cycling, in lung in cases of paraquat poisoning, **6**, 31
Renal dysfunction, induction in prenatal and early post natal children after maternal use of mercury containing soap, **6**, 253
Renal failure, implication of ranitidine in bone marrow hypoplasia in patients in intensive care, **6**, 503
–, induction after re-exposure to nomifensine, **6**, 245
–, induction in cases of paraquat poisoning, **6**, 31
Renal papillary necrosis, enzyme histochemical changes in rats, **6**, 430
Renal symptoms, paraquat poisoning, **6**, 41
Respiratory depression, induced by meptazinol overdose, **6**, 331
Respiratory failure, paraquat poisoning, **6**, 41
Retinoids, induction of hyperlipidaemia, effect of dietary fish oil, **6**, 219
Rhabdomyolysis, symptom of doxylamine overdose, **6**, 355
Riboflavin, pharmacological treatment of paraquat poisoning, **6**, 57

Saccharomyces cerevisiae, use for studying paracetamol toxicity, **6**, 439
Salbutamol, effect of subcutaneous challenge on electrocardiogram of dogs maintained on inhaled beclomethasone dipropionate or sham-treated, **6**, 442
Seizures, convulsive, during nomifensine treatment, **6**, 247
–, symptom of doxylamine overdose, **6**, 355
Selenium, pharmacological treatment of paraquat poisoning, **6**, 57
Self poisoning, investigation in Newcastle upon Tyne with relation to age, **6**, 511
Sex, effect on toxicity of orally administered L-tri-iodothyronine in rat and cynomolgus monkey, **6**, 440
–, influence on UK blood monitoring programme, **6**, 459
Side effects, beta-blockers, **6**, 195
Skin, effect of exposure to high concentrations of methyl bromide, **6**, 491
–, human, permeability to paraquat, **6**, 13
–, irritant actions of paraquat, **6**, 41
Skin lightening creams, nephrotoxic effects, **6**, 253
Socio-economic factors, effects on blood lead concentrations, **6**, 459
Sodium arsenite, hepatic effects on rats pre-treated with phenobarbitone or 3-methylcholanthrene, **6**, 432
–, tissue levels of arsenic following toxic doses in rabbits, **6**, 434
Sodium montmorillonite, treatment for paraquat poisoning, **6**, 49
Somnolence, symptom of doxylamine overdose, **6**, 355
Spectrophotometry, measurement of paraquat in biological fluids, **6**, 83
Spermicidal potency, Coca-cola and Pepsi-cola, **6**, 395
Squill, in cough linctus, induction of cardiac glycoside toxicity, **6**, 251
Styrene oxide, detoxification by human liver glutathione transferase, **6**, 483
Sulphasalazine, induction of keratoconjunctivitis sicca in dogs, **6**, 377
Sumithion *see* **Fenitrothion**,
Superoxide dismutase, pharmacological treatment for paraquat poisoning, **6**, 57
–, pulmonary activity in four cases of lethal paraquat poisoning, **6**, 100
Systolic time intervals, effect of astemizole, **6**, 527

Tachycardia, symptom of doxylamine overdose, **6**, 355
Target-oriented model systems, **6**, 414
Tartrazine specific reaginic antibody production, dose-response study, **6**, 438
Teeth, lead levels, suggestion of lead intoxication, **6**, 475
Terbutaline, concentrations in self poisoning, a case report, **6**, 525
Terminal care, paraquat poisoning, **6**, 41
Testicular cell, in culture, effect of carboxylic acid analogues of methoxyacetic acid, **6**, 425
Testing procedures, toxicology, **6**, 414
Thiocyanate, influence of cigarette smoking on levels, **6**, 507
Thyroid hormone levels, influence of cigarette smoking on serum and urinary levels, **6**, 507
Thyrotropin, influence of cigarette smoking on levels, **6**, 507
Thyroxine, influence of cigarette smoking on levels, **6**, 507
Tobacco smoking, relevance of brain nicotine binding sites, **6**, 343
Toxic metals, *in vivo* measurements using neutron activation analysis and X-ray fluorescence, **6**, 421
Toxicity, aminoglutethimide as second-line hormonal therapy in advanced breast cancer, **6**, 227
–, evaluation of testing of substances, **6**, 279
Tracers, measurement of regional concentrations in man by positron emission tomography, **6**, 420
Tranquilizers, epidemiological aspects of childhood poisonings in Ankara, **6**, 147
Treatments, international opinion concerning indications, safety and availability at poison centres, **6**, 351
L-tri-iodothyronine, comparison of toxicity when administered orally in rat and cynomolgus monkey, **6**, 440
–, influence of cigarette smoking on levels, **6**, 507
2,2,-4-Trimethylpentane, interaction with male rat kidney α_{2u}-globulin, **6**, 425
TRP-P-2, methods for attempting to detect in cooked meat and fish, **6**, 431

Tumours, hepatic, initiated by diethylnitrosamine and promoted by hexachlorobenzene, porphyrogenic response, **6**, 434

Ulcerative colitis, negative association with cigarette smoking, **6**, 189
Unit dose packaging, effectiveness in preventing childhood poisonings, **6**, 303
Urine, prognostic value of paraquat concentrations, **6**, 91
Uranium, metabolism in rat after inhalation of two industrial forms of ore concentrate, implications for occupational exposure, **6**, 385
Uranium octoxide, metabolism in rat, implications for occupational exposure, **6**, 385

V79 cells, inhibition of metabolic cooperation by cycloheximide, **6**, 433
Venda Africans, antipyrine metabolism, **6**, 127
Visual acuity, effect of atropine sulphate in man, **6**, 165
Visual analogue scales, role in quantification of side effects of beta-blockers, **6**, 195
Visual performance, effect of single intramuscular injection of atropine in man, **6**, 165

Weed control, uses and usefulness of paraquat, **6**, 7
Whole gut lavage, treatment of paraquat poisoning, **6**, 49

X-ray fluorescence, *in vivo* measurements of toxic metals, **6**, 421
